

## Economics Colonial Economic Influences/ Lesson Plan

As part of the George Washington Foundation Fellowship program, George Washington's Ferry Farm and Historic Kenmore are developing lesson plans to guide teachers and their students in the study of colonial history.

This, their first lesson, deals with the importance of agriculture (tobacco) and slavery. Fredericksburg is mentioned in this lesson, but tobacco was a common agricultural crop throughout Stafford. Some of the terms that are introduced in this lesson are *debt*, *barter*, and *credit*.

Keep checking in on this website, as new lesson plans are in the process of being developed.
